The practices contained in this short course were designed specifically for the professional merchant who seeks a frequent number of trading games ³ each day. The following practices enjoy such a high degree of accuracy ³ a state that many of our professional traders focus on them exclusively for a living in the markets. We have always thought that the professional trader needs only 2 to 3 highly reliable trading practices in their arsenal in order to earn a ³ trading life. You're about to be informed of 10 of those tactics. Guerrilla Tactics is designed for the merchant who wants to Â Â grindÃ¢ Â Â profit in a period of time of 1 to 2 days. They often do not result in very large profits, but the consistency of their earnings makes them an indispensable addition ³ their arsenal of operations. With these 10 Guerrilla Trading tactics, we believe your trade will be taken to a whole new level. The key to this strategy lies in the ¢ÃÂimmediate¢ÃÂ break to the upside. Bull & Bear Traps Bull Trap * * The Bull Trap was a Bearish Gap Surprise Play first. The Guerrilla Trader got two solid signals to go short UTX. Bear Trap Chart Courtesy of Mastertrader.com Bear Trap Play Sell Buy Bear Trap Chart Courtesy of Mastertrader.com Bear Trap Play Short Bear 20/20 Play Sell Cover Buy Bear Trap Chart Courtesy of Mastertrader.com The Bearish Mortgage Play ¢ÃÂ Tactic Nine This short method, while accurate, will deliver huge losses when it fails. It is also an excellent intra-day tactic, but is best applied to the 60-min time frame at the open. This short tactic is actually a derivative of the Bull Trap. Properly used, this short tactic can enjoy a 94% accuracy rate (3 to 10 day holding period on average). The Bearish Mortgage Play ¢ÃÂ Tactic Nine The Setup / The Action 1. Bar 1 must be a bullish 20/20 bar. This is the bar that indicates that a large number of longs have been committed. Note: The smaller the upper and lower tails on Bar 1 the better. 2. Bar 2 must open below the low of Bar 1. Note: The Mortgage Play is only a two -bar strategy. A B Open The Bearish Mortgage Play ¢ÃÂ Tactic Nine The Setup / The Action 1. Immediately short at the market when Bar 2 opens below the low of Bar 1. Note: This signifies that now every hedge fund, mutual fund, trader, and investor who bought during Bar 1 is now in negative territory. All longs are thrown for (the (the Bear day) cãrculo. 2. Place your stop just on the maximum of the bar 1. 1. Note: This makes this technique very high risk. risk . If it fails, the pã © y -redida is technically large, unless the rank of bar 1 is not so large and the descending gap is not so large or severe. Many merchants may want to opt for an arbitrary stop. 3. Use a final stop strategy until a) its objective has been met, b) the maximum of an investment bar or c) has been violated a gap down. A brief in Open B, the short game of the mortgage requires great faith by the merchant. The merchant must not only believe of every heart in the precise of the strategy, but must have the stimaging and the adequate size bank account that can handle the great public without much damage, if necessary. Keep in mind that the stops are so far, meaning by the dotted red lines, they are in examples at ã ¢ â,¬ - B. we encourage to play small. The great potential profits go hand in hand with great potential people. ? The bullish mortgage game: the Tenic Ten is all long, although exact, will deliver great people when it fails. It is also an excellent intradic tisma, but it is better applied to the 60 -minute framework at the opening. This long technical is actually a derivative of the bear trap. It is used correctly, this long technique can enjoy a precise rate of 94% (retention of 3 to 10 days on average). The bullish mortgage game: Ten's Ten The configuration / action 1. The bar 1 must be a 20/20 bearish bar. This is the bar that indicates that a large number of merchants have been sold. Note: How much small are the upper and lower queues in bar 1, the better. 2.
